

Simplify

Your Desk Moving Problems with

New MIGHTY KING DESK LIFT

It's Simple — It's Easy — It's Safe

Field tests show desks can be moved for floor maintenance in less time than required to clean, scrub and wax around them.

FEATURES

- Rugged steel and cast constructed caster base
- Heavy duty roller-bearing casters rotate freely in full 360° circle for easy maneuvering with or without load
- Electric welded steel tubular lift frame completely coated with non-mar material
- Removable steel tubular lever handle — coated with non-mar resistance finish
- Positive safety latch automatically locks in raised position — single trip for release
- Electrostatically finished with baked enamel
